

Timeline

TCA Internationalisation strategies

Eline van der Net

Gonnie van der Eerden

Timeline

Construct a timeline for Internationalisation at your institution:

- ◆ PAST The very beginning of international activities.
 How did it all start?
- ◆ PRESENT What is the position and are the recent developments of
 internationalisation in policy and in practice?
- ◆ FUTURE How will internationalisation look like in 3 to 5 years?
- ◆ FAR FUTURE How will internationalisation look like in 15 years?
 Is there a vision, if not: what could it be?

Add:

- ◆ People/stakeholders involved: colleagues, students and partners
- ◆ Milestones and moments of success
- ◆ Interventions that led to sustainable results
- ◆ Resources

Timeline

- ◆ Can you identify core values of your institution?
- ◆ Can you identify possible developmental areas for the near future?
- ◆ If your institution has a vision and mission, does it contain building blocks for a strategy on internationalisation?

Reflection

- ◆ Is the course of the internationalisation mainly coincidental or based on strategy?
 - ◆ Did the strategy lead to the desired results?
- ◆ What happens if you would no longer be working at the institution?
 - ◆ How vulnerable is internationalisation?
 - ◆ How is the quality assured?
- ◆ Did you succeed to gain impact?
 - ◆ What was the impact and on which level?
 - ◆ What were the critical keys to succes?
